NURELHUDA EL-YOUNIS

Software Engineer

+961 76176322 • nurelhuda.younis@gmail.com • Sep.6,1999 • Saida, Lebanon

Summary

Skilled software developer with 3+ years of experience specializing in creating responsive and visually engaging cross-platform applications using Flutter and web technologies. Dedicated to staying at the forefront of emerging trends, I bring expertise in problem-solving, code optimization, and collaborative development to drive success in dynamic projects. Eager to join a forward-thinking team to enhance my proficiency and contribute to innovative solutions.

Experience

Click Round Technologies

Software Engineer II   **2022 - Present**

- **Web Developer**
  - Implemented new features and enhancements for ERP software using PHP, improving efficiency and user experience.
  - Developed e-commerce websites with ERP and payment gateway API integration.
  - Maintained CMS systems and web applications, ensuring consistent functionality across industries.
  - Built SEO-optimized websites, enhancing online visibility and user engagement.
  - Built and maintained APIs for seamless client-app integration using PHP.
  - Deployed and managed websites on Apache servers via cPanel, ensuring optimal performance.
- **Flutter Developer**
  - Created a Flutter-based ERP application featuring dashboards, report generation, and real-time notifications, streamlining business insights for users.
  - Designed and implemented a multi-role application utilizing SQL and SQFlite, managing user-specific content such as profiles, student lists, evaluations, and more.
  - Developed an employee attendance system leveraging personal devices for attendance management, reducing hardware costs and enabling multi-site access.
  - Built a restaurant ordering application that allows customers to browse menus, place orders, and customize selections, improving service speed and efficiency.
  - Designed a responsive patient application for web and mobile, featuring secure user authentication, appointment scheduling, and notification functionality.
  - Developed a customer service app supporting OTP authentication, appointment requests, visit histories, invoice tracking, and user settings, enhancing user experience and operational efficiency.
  - Contributed to updating and enhancing existing Flutter applications with new features and optimizations.
